WARRENS

GENTSEVAART 30 - 4565 EV KAPELLEBRUG

Reliable and adjustable - the No. 1 set planter !

The Delta onion set planter has been continuously developed from the original highly successful design in the 1980s. It is now the market leader, selling worldwide.

A simple but effective design and robust build with minimal moving parts gives the Delta planter exceptional longevity - many original models are still working as new!

Fully adjustable row spacing and variable speed land-wheel driven table belt with a counter-rotating brush ensures optimal precision with all set sizes and conditions.

Special coulters mounted on a pivoting parallelogram and off-set covering discs with optional press wheels give consistent planting depths and optimal soil contact.

- ✓ Simple robust design !
- ✓ Highly reliable !
- ✓ Uniform set planting !
- ✓ Optimal crop returns !
